for the few hundred television viewers in 1946 a special treat on the broadcast schedule was the variety show called hour glass it was the first tv program to go beyond talking heads cooking demonstrations and sporting events featuring instead dancers comics singers and long commercials for its sponsor chase and sanborn coffee within two years another variety show texaco star theatre became the first true television hit and would be credited with the sales of thousands of television sets the variety show formula was a staple of television in its first 30 years in part because it lent itself to a medium where everything had to be live and preferably inside a studio most of the early television stars including jackie gleason milton berle sid caesar ed sullivan red skelton dinah shore and arthur godfrey rose to prominence through weekly variety shows in the 1960s major stars such as jerry lewis dean martin judy garland and danny

kaye were hosting variety shows by the 1970s the format was giving way to sitcoms and dramas but pop music stars sonny and cher tony orlando and dawn and donny and marie osmond hosted some of the last of the species this book details 57 variety shows from the 1940s through the 1990s a history of each show is first provided followed by a brief look at each episode air date guest stars sketches performed and a listing of songs featured are included

this book considers how languages have traditionally been divided into families and asks how they should be classified in the future it describes and applies computer programs from biology and evolutionary genetics to data about languages and shows how the power of the computer can be harnessed to throw light on long standing problems in historical linguistics it tests current theories and hypotheses shows how new ideas can be formulated and offers a series of demonstrations that the new techniques applied to old data can produce convincing results that are sometimes startlingly at odds with accepted wisdom april and robert mcMahon combine the expertise and perspectives of an historical linguist and a geneticist they analyse the links between linguistic and population genetics and consider how far language can be used to discover and understand the histories and interrelations of human populations they explore the origins and formation of the indo european languages and examine less well studied languages in south america their book will be of great practical importance to students and researchers in historical and comparative linguistics and will interest all those concerned with the classification and diffusion of languages in fields such as archaeology genetics and anthropology its approachable style will appeal to general readers seeking to know more about the relationship between linguistic and human history

report of the dominion fishery commission on the fisheries of the province of ontario 1893 issued as vol 26 no 7 supplement

includes information about spanish and latin american people and their way of life
